A Cleveland, Ohio native, Jonathan Mannion began capturing images of up-and-coming urban music superstars after working for a year with world-renowned photographer Richard Avedon. In 1996, he launched his professional career by shooting the photographs for the classic hip-hop album *Reasonable Doubt* by Jay-Z. In the years since, Jonathan's photography has grown alongside the culture he so loves, helping to visually define an era of urban music. As DJ Quik once pointed out to him, the world sees hip-hop through his eyes. However, he is modestly circumspect about his role. "I'm just a messenger," he observes, "and I've been given a talent to document an extremely important era of music history. I have a love for hip-hop that goes back to when I was a teenager, and I feel blessed to have had the chance to shoot the artists I've worked with. I've had the opportunity to grow with them and the photos I've shot over the years have become visual bullet points of their creative evolution and mine."

Spotted at Hypebeast.

Belly – The Greatest Dream I Never Had (Mixtape)

With production by DannyBoy Styles, DaHeala, The Weeknd and Belly, The Greatest Dream I Never Had is a very unique project and quite “outside the box” for Belly, compared to some of his other tapes. This mixtape is dark, personal and intimate. Each song samples records from the 70s, 80s and 90s, including artists like Love Inc (Broke Bones), REM, Lana Del Ray (Videogames), James Blake (The Wilhem Scream) among many others.

Tracklist and link down bottom.
